

# TECHNICAL SHEET

## PRODUCT IDENTIFICATION

Trade name: **VIRON**  
Type of product: EC fertilizer.

## COMPOSITION

Nitrogen (N) ..... 2% (w / w)  
Phosphorus (P<sub>2</sub>O<sub>5</sub>) ..... 2% (w / w)  
Potassium (K<sub>2</sub>O) ..... 1% (w / w)

## PROPERTIES

VIRON It is a liquid formula rich in macronutrients specially formulated to ensure a balanced development of plants. NPKs ensure the stability of the plant in different stress situations as well as their efficient assimilation of these elements. It acts by stimulating the mechanisms of the natural defenses of the plants against the different pathogens that can cause damage to the leaves, fruits, roots and consequently a decrease in yield.

## DOSES AND APPLICATION

**VIRON** can be applied across different application systems. Directly in the soil injected into the irrigation system, or foliarly.

Cultures	Leaf doses per application
Cereals	3-5 L / ha
Forage crops	3-5 L / ha
Vegetable crops	3-5 L / ha
Greenhouse crops	3-5 L / ha / 1000 L of water. Applied 3 -5 times.
Potato, onions	2.5-5 L / ha / 1000 L minimum water.
Fruit trees	5-6 L / ha / 1000L of water.

## STABILITY AND STORAGE

VIRON is stable for at least 3 years from the date of manufacture. Store in a cool and ventilated place. Do not expose directly to the sun during prolonged periods. Store out of reach of children. Do not store near food or feed.

## SAFETY INSTRUCTIONS

Keep out of reach of children  
Do not eat and drink during application  
Do not breathe product vapor  
Keep away from food, beverages and feed  
In case of contact with eyes, rinse immediately with plenty of water and seek medical advice  
Wear protective gloves and eye / face protection.  
In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
